

Infinity™ Knee System

Modular ACL & PCL Reconstruction Platform

Imagine performing AM or all-inside techniques, with the flexibility of straight, curved, or retro reaming, and achieving suspensory or aperture fixation with one system. Imagine an adjustable loop button that allows for graft re-positioning after initial femoral fixation. Developed by an international team of world-renowned knee surgeons, this system has been designed to do just that.

Introducing the Infinity™ Knee System – one system with infinite possibilities.

Infinity™ ACL Tibial Footprint Guide with All-Inside Guide Sleeve

Features and Benefits

The World's First Adjustable, Reversible Button

After initial tensioning of the graft in the femoral tunnel, the Infinity™ Femoral Adjustable Loop Button allows surgeons to re-lengthen the graft loop and re-position the graft within the femoral and tibial tunnels.

One Modular System

The versatile Infinity™ Knee System supports:

- All-inside and anteromedial techniques.
- Straight, curved, and retro-reaming preferences.
- Fixation for both soft tissue and soft tissue and bone grafts.

Infinity™ Femoral Adjustable Loop Button

Designed by Innovators

We've partnered with a team of the world's most renowned knee surgeons, to develop products that overcome the challenges surgeons face in the OR every day. The result is a complete system designed to provide versatility, procedural efficiency, and an easier day in the OR.

Infinity™ Anteromedial Guide with Spade Tip Guide Pin

Infinity™ Retro-Reamer

To simplify your next ACL /PCL reconstruction case, call **1-866-4CONMED** to schedule a demonstration or visit CONMED.com/Infinity.
